EXPERIENCE

Full Stack Engineer / Tech Lead

Feb 2023 - Mar 2026

SafetyConnect

Remote

- **Built and deployed an enterprise RAG chatbot** combining Text-to-SQL analytics with semantic search across product documentation and knowledge base content, with strict RBAC and AI guardrails.
- Architected and **developed a customizable dashboard** that lets customers create and visualize safety data in real time, improving reporting and personalized insights per customer.
- Refactored Node.js microservices and tuned database for partitioning and better indexing, **cutting AWS spend by 30%** and reducing the average **API latency from 400 ms to 250 ms**.
- **Engineered a advanced template builder and its workflow engine** to transition paper-based workflows like permit to work, incident management, into efficient digital solutions.
- Led and mentored a 6-person engineering squad; introduced CI/CD, structured code reviews, and sprint rituals that lowered escaped defects and **cut release cycle time by 20%**.

Full Stack Engineer

Sep 2021 - Feb 2023

LST Consultancy

Nashik, IN

- **Developed TaskSprint, a multi-tenant project management SaaS** platform featuring Kanban boards, project and task management, real-time collaboration, time tracking, leave management, and reporting.
- Engineered an automated data processing pipeline to extract, transform, and generate Word, Excel, PDF, and text documents programmatically.
- Built a product usage analytics dashboard that improved visibility into usage behavior, helping **reduce churn by 20%**

PROJECTS

NPM Package - Sequelize with Spatialite [Link](#)

- Developed an open-source **NPM package** adding **Spatialite** support to **Sequelize ORM**, enabling geospatial data management and spatial queries on SQLite databases.
- Extended Sequelize with spatial data types and geospatial operations while maintaining a seamless, ORM-native developer experience and API compatibility.

Mira AI - RAG Chatbot with Local inference [Link](#)

- Full-stack RAG chatbot using **FastAPI, React, and TypeScript**, integrating **llama.cpp** for private local LLM inference and **ChromaDB** for semantic vector search.

EDUCATION

SAVITRIBAI PHULE PUNE UNIVERSITY

Masters in Mathematics

Jun 2023 - May 2025

SAVITRIBAI PHULE PUNE UNIVERSITY

Bachelor of Computer Science

Jun 2018 - May 2021

CERTIFICATIONS

Machine Learning Specialization from Coursera [Link](#)

Neural Networks and Deep Learning from DeepLearning.AI [Link](#)

SKILLS

Backend : Typescript, Node.js, Express.js, PostgreSQL, Redis, Prisma, BullMQ, Nginx, PM2

Frontend : React, Next.js, HTML/CSS, Tailwind CSS, Vite, Shadcn, Redux, Zustand, Javascript

AI/ LLM : Python, LangChain, LlamaIndex, FastAPI, RAG, ChromaDB, Qdrant, FAISS, Prompt Engineering

Tools : Linux, Docker, Claude Code, Cursor, MCP, Github, llama.cpp, CI/CD, AWS
